Nadzeya Huts

SENIOR UX/UI · PRODUCT DESIGNER · AI PRODUCT BUILDER

Product designer with 6 years in UX/UI and 16 years in design, creating intuitive, trustworthy products for Fintech, Banking and Web3. I design, build and grow products with AI — from research and prototypes to working apps and websites, analytics and SEO optimization. I partner closely with product managers and engineers to ship best-in-class user experiences that meet both user needs and business goals.

EXPERIENCE

UX/UI · Product Designer

2020 — Present

RNDpoint · Warsaw

- Led design for neobanks, RWA tokenization and DAO platforms, crypto games, e-wallets, a carbon trade marketplace, Telegram bots, the ProcessMIX low-code platform, Credit Document Management System (CDMS), ABLE Origination platform and decision-making systems.
- Built design systems with Atomic design methodology — UI kits, Figma Variables, style guides and design guidelines.
- Took ideas from low-fidelity wireframes to interactive, clickable and animated prototypes, iterating on feedback and usability testing.
- **AI-built products at 4IRE (RNDpoint group) — designed and built with Claude as working products:**
  - **Sentinel** — advisor portal for retirement planning: client profiles, income sources, allocation, longevity & risk reports; desktop and mobile.
  - **EarthByt** — carbon credit marketplace: buyer / issuer onboarding with KYB & AML, project listings, checkout, retirement certificates, ESG reporting and admin portal.
  - **NOVA** — two provably-fair crypto mini-games for a pre-sale demo: Crash (rocket) and 30-second price prediction rounds.
- Collaborated with product managers, developers and stakeholders to keep user needs central to every solution.
- Designed landing pages and corporate websites for ProcessMIX, RNDpoint, 4irelabs and Decio.io; created company and product documents, templates and presentations.

Web Designer

2016 — 2020

Altoros Development · Minsk

Crafted user-centric digital experiences for outsourcing clients: concepts, wireframes and prototypes, refined with developers through every iteration. Designed static and animated banners, company templates and presentations, and print materials for ads, events and social media.

Web / Graphic Designer

2018 — 2019

Savii Digital · Pärnu (remote)

Designed websites, landing pages, digital ads and promotional materials tailored to each ICO's brand identity and audience.

Web Designer

2018 — 2019

OpenLedger ApS · Denmark (remote)

Designed static and animated banners and creatives for social media campaigns within brand guidelines.

Freelance Designer

Various clients

a1qa · Monday Agency · SOBYTIE Agency

Projects for a1qa, Monday Agency (Burger King, Danone, Voka, Dodo Pizza) and SOBYTIE Agency (Viber, Depo, Krynica): website and app layouts, Telegram bot interfaces, museum experiences, event materials and catalogues. Mentored aspiring designers.
